CSDS Downloads

To download the 2017 CSD-System Software and suites, just enter your 2017 site number and confirmation code details below. You will then get an email with download links and some simple instructions. If you currently only have access to 2016 CSD-System Software, then your 2016 details may also be used to obtain a set of links for the older release.

If you do not receive your email after a few minutes, it does mean something has gone wrong. First, check your spam folder and also ensure that @ccdc.cam.ac.uk is in your safe senders / domain list. Then try again. If you still have any problems, please fill in [this form](#) and we'll soon sort them out.

If you do not yet have access to the CSD, again, just pop your details into [this form](#).

Email Address

Site Number

Confirmation Code

6. 注册邮箱会收到下载链接，点击完成下载

Dear CSD System User,

Please find below your requested download links to the CSD System installers and to the related documentation below:

- [What's New 2017](#)
- [CSDS 2017 Release & Installation Notes](#)
- [CSDS 2017 MacOS](#)
- [CSDS 2017 Windows](#)
- [CSDS 2017 Linux 32-bit](#)
- [CSDS 2017 Linux 64-bit](#)

These links will remain active for 24 hours from the time this email was sent. We recommend that all required installers are downloaded and stored for distribution to all users on your site.

Users interested in setting up their own local IsoStar server on Linux can access the installer for this here:

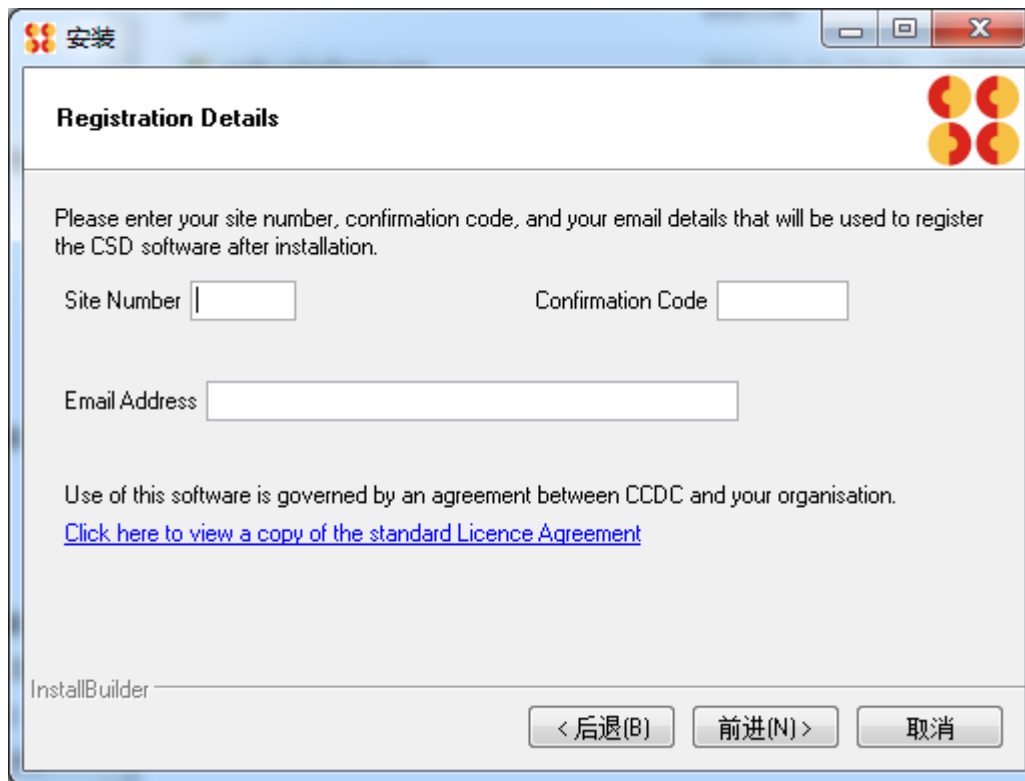

[IsoStar Server \(linux 32-bit\)](#)

Advanced Python users can also download pip and conda packages to install into their own Python. More details on these packages can be found on our CSD Python API forum here:

7. 完成下载，大约 6.05GB

8. 开始安装，在此处再次输入 site number & confirmation code 和注册邮箱，并完成安装

9. 根据需求，选择对应模块，开始使用

The Cambridge Structural Database (CSD)

The Cambridge Structural Database (CSD) is a highly curated and comprehensive resource that is essential to scientists around the world.

Established in 1965, the CSD is the world's repository for small-molecule organic and metal-organic crystal structures. Containing over 875,000 entries from x-ray and neutron diffraction analyses, this unique database of accurate 3D structures has become an essential resource to scientists around the world.

With comprehensive and fully retrospective coverage of the published literature you can have full confidence that your CSD searches are returning all crystal structure matches. The CSD also contains data published directly through the CSD as [CSD Communications](#) that are not available anywhere else.

Your WebCSD Log-in Licence

Your User Portal account is linked to the CSD Licence for Site 5949.
You don't currently have a WebCSD log-in licence.

Terms and Conditions

To activate your WebCSD log-in licence, you must agree to the following conditions:

1. You have legitimate access to the licence codes you have used to link your CSD Licence.
2. The primary contact for your CSD Licence is aware that you are using one of a restricted number of user log-ins for WebCSD.
3. The email address you have used for User Portal registration belongs to a valid domain that can be directly linked to your licensing organisation (for example: user@ccdc.cam.ac.uk belongs to the CCDC's domain ccdc.cam.ac.uk).

I agree to the above conditions

Create a WebCSD Log-In Licence

Your WebCSD username and password will match your User Portal account details.

Username:

Please authorise this licence request by entering your current User Portal password (which will become your WebCSD password):

User Portal Password:
